### 5) Briefings/Comments:

#### a) District and County Councillors

Cllr Murphy reported that District Councillors had been invited to attend a Local Plan workshop. Cllr Murphy had been contacted by residents regarding the application for a replacement wind turbine, as result Cllr Murphy has asked for the matter to be determined by the planning committee. Regarding the Dog Lane/Dam Road junction, motorists are hitting the reservation in the middle of the road, Cllr Murphy has written to the County Highways Department requested that reflective signs be fitted.

The District Council tax will be discussed at a full Council meeting, it is anticipated that the rise will be 2.99% which is the maximum amount that the District Council can set; the Council will also be spending some of their reserve in order to balance the books and will also be looking to make savings.

#### b) Invited comments from Hulland and Biggin Parishes

Mr Barrel reported that the Hulland village litter pick would be held on the same day as the Hulland Ward litter pick. There was a query regarding the ownership of a missing grit bin. Full fibre broadband would shortly be available in Hulland and Hulland Ward, an information session would be held in due course. Hulland residents had raised concerns about potholes.

#### c) Invited comments from the public – members of the public will be allowed 3 minutes per person; the maximum amount of time allowed for this item will be at the discretion of the Chair but will usually be 10 minutes.

A resident of Hognaston raised concerns about the suitability of fibre broadband and felt that digital was unreliable.

A resident raised objection to the wind turbine application. The old wind turbine had not been removed and should have been decommissioned and removed in 2015 when it was no longer in use. The new application is not replacing like for like, the new turbine is much larger and will have significant impact in this very rural location. The resident advised everyone to look at the location and the specification as

the proposals were for a much larger wind turbine. The resident was in the process of raising an objection. The Chair advised anyone with concerns to submit these to the District Council.
